HOURS:							

Do you have any experience in the moving industry? *Check one:* yes no

- If yes, where, how long, position, and pay of job before. Any benefits?

- If no, what kind if any, experience do you have in physical labor?

Moovin & Groovin is not just a moving company. It was started with the owner and a \$80 dolley from lowes doing jobs on his own. 2 years later we have 2 locations and plans to expand every year. Those who prove themselves worthy, WILL get the opportunity to open their own location and as we expand, take on new roles as we grow. We are a team and are building a team, with that in mind we are interested in those who want to build something with us. We have plans to continuously expand into new fields such as real estate, hot shotting, trucking, storage, junk removal, ect. Within the next three to five years these pursuits will become a reality and everyone will get a piece. We strive and work every day as a team with one combined effort and goal to build a life of financial freedom for ourselves, our loved ones, and provide jobs and a great service for our community.

If you have experience or knowledge in any field that would bring something to the table and or just want to explain why your tired of struggling and want to break the cycle, please explain.
